#### Vision

Shakthi Residential School and Shakthi Pre-University College aim to harness the energy of the pupils and teachers for the overall development of their potentialities. In order to attain this goal our endeavour is to impart education in a holistic manner such that the insights derived are a source of support throughout the student's life.

Guided by the belief that diversity is the soul of our society, we will guard against building sameness among the pupils by encouraging independent thinking while at the same time emphasising the importance of having mutual respect for one another's views. To further this end we will direct our efforts towards creating an environment that fosters creativity and innovation for the benefit of both the students and teachers alike.

Our cherished goal is to prepare every pupil of the school and college to excel in his or her chosen field and take on leadership roles thereby contributing to the growth and development of our society.
